

POKÉMON SNOW GLOBE

MATERIALS

- Clear jar with lid
- Waterproof glue
- Pokémon figurines and winter décor
- Glitter flakes
- Glycerin
- Water

INSTRUCTIONS

1. Remove the lid from the jar and place the lid upside down on the table.
2. Glue figurines and décor to the underside of the lid. Make sure they fit inside the jar when the lid is screwed on.
3. Fill up the jar with water.
4. Add a heaping teaspoon of glitter to the water. (Or more, if you like!)
5. Add 3 drops of glycerin to the water to help the glitter float better.
6. Put glue around the edge of the jar.
7. Screw the lid tightly onto the jar, and let it dry overnight.
8. When it's dry, turn the jar upside down and shake it to see the snow globe in action.
